

LIFE SCIENCES LIABILITY

ABOUT CREECHURCH

Creechurch International Underwriters is an underwriting management company offering specialized insurance solutions for independent businesses and trade associations. Our products are distributed exclusively through licensed Canadian insurance brokers.

Established in 1996, Creechurch identified an under-served market in the high-tech sector and offered quality insurance products to companies unable to find coverage from traditional insurers. Today, we still serve this niche market and have expanded our unique product line to include Information Technology Liability, Directors and Officers Liability, Product Liability, Errors and Omissions Insurance, General Liability and Property Insurance.

Creechurch is now the largest Lloyd's coverholder in Canada, and all of our products are developed in-house specifically for the Canadian market. We work closely with brokers, insureds and insurers to produce the most comprehensive coverage for your clients.

LIFE SCIENCES LIABILITY

The life sciences industry was one of the first niche markets that Creechurch served when it began its operations back in 1996. Today, we insure hundreds of life sciences firms across Canada. Due to the constant evolution of the industry, our team is committed to continually researching developments in this sector, further strengthening our expertise and unique product offerings.

Our liability policy provides comprehensive coverage for companies in the life sciences sector, including contract manufacturers and distributors. It is ideal for companies involved in pharmaceuticals (branded, generic or holistic products), biotechnology (research and development), medical devices (all FDA and Health Canada Classes I through IV), and clinical trials.

Our experience and expertise in this industry has allowed us to design a competitive policy with specialized coverages to give your clients the protection they need. From the pre-clinical stage to the distribution of a medical product, our liability policy has your clients covered.

Our Coverage Highlights

- Canadian or U.S. limits
- Worldwide coverage
- Coverage for Bodily Injury and Property Damage
- Full Clinical Trials coverage, including Medical Malpractice and Errors and Omissions
- Separate sub-limits for product tampering, radioactive contamination and bio-contamination coverages
- Key man insurance
- ERP option available

Contract Research Organization Professional Liability

On occasion, companies may hire a Contract Research Organization (CRO) to conduct clinical trials on their behalf. CROs face not only a vicarious product liability exposure, but also malpractice (failure to follow the manufacturer's directions, or protocol, causing injury) and/or errors and omissions exposures (improper filing of the results, resulting in rejection or delay in drug approval, causing financial loss). We understand the unique risks that these CROs face and have developed a specialized CRO Professional Liability policy that gives them the financial loss protection they need in addition to medical malpractice coverage.

For more information or to download our applications, visit our web site at www.creechurch.com or contact our Life Sciences Team.

SEAMLESS BROAD PROTECTION

Ensure that your clients have complete insurance protection by including **Commercial General Liability** and **Commercial Property** as part of their total insurance package. Both our CGL and Property coverages complement our Life Sciences policies and offer all the broad cover your clients need. This gives them the opportunity to place all their policies with the same insurer, eliminating gaps in coverage, claims disputes, and non-concurrent forms. Our policies are designed to fit together for seamless broad protection giving your clients the security they need and the superior service they deserve.

Insurance Protection for Directors and Officers

Directors and officers face increasing responsibility and scrutiny by shareholders and others in the performance of their duties and the quality of corporate governance. It is essential that your clients' company assets and the personal assets of their directors and officers are protected to ensure the long-term success of their company. Talk to our D&O Team about our specialized coverages and for a competitive quote.

BIOPAC Package for Life Sciences Research & Development Firms

We designed our BIOPAC package to suit the specific needs of R&D companies. BIOPAC includes Errors & Omissions, General Liability and specialized Property coverages in one convenient package policy and gives your clients flexibility in choosing their limits. It's fast and easy for them to qualify, and they only need to complete one application to obtain a quote for all three coverages. For more information on this package, please refer to our BIOPAC brochure, or visit our web site at www.creechurch.com.

THE CREECHURCH ADVANTAGE

We concentrate on specialized insurance products and strive to be the best at what we do. Through our experience insuring niche clientele, we have built up extensive underwriting knowledge and offer expertise and focus not found at the larger insurers. We understand the unique business risks your clients face and are committed to keeping abreast of trends, including changes in government regulations and the legal system, to ensure that everyone's interests are protected.

We pride ourselves with the exceptional service that we provide to our brokers. Our strong underwriting team and support staff work closely together to offer timely service without compromising its quality. Our solid reputation for issuing policies both quickly and accurately, as well as providing ongoing support to our brokers, emphasizes our commitment to customer service.

Our claims process ensures that your clients' claims are thoroughly evaluated and are resolved both promptly and fairly. We handle our claims independently, allowing us to carefully select teams of skilled experienced professionals to ensure that your clients get the best possible protection. After all, your clients purchase insurance to protect themselves and we are there to honour that promise.
