IT Packages for Small Firms

ABOUT CREECHURCH

Creechurch International Underwriters is an underwriting management company offering specialized insurance solutions for independent businesses and trade associations. Our products are distributed exclusively through licensed Canadian insurance brokers.

Established in 1996, Creechurch identified an under-served market in the high-tech sector and offered quality insurance products to companies unable to find coverage from traditional insurers. Today, we still serve this niche market and have expanded our unique product line to include Information Technology Liability, Directors and Officers Liability, Product Liability, Errors and Omissions Insurance, General Liability and Property Insurance.

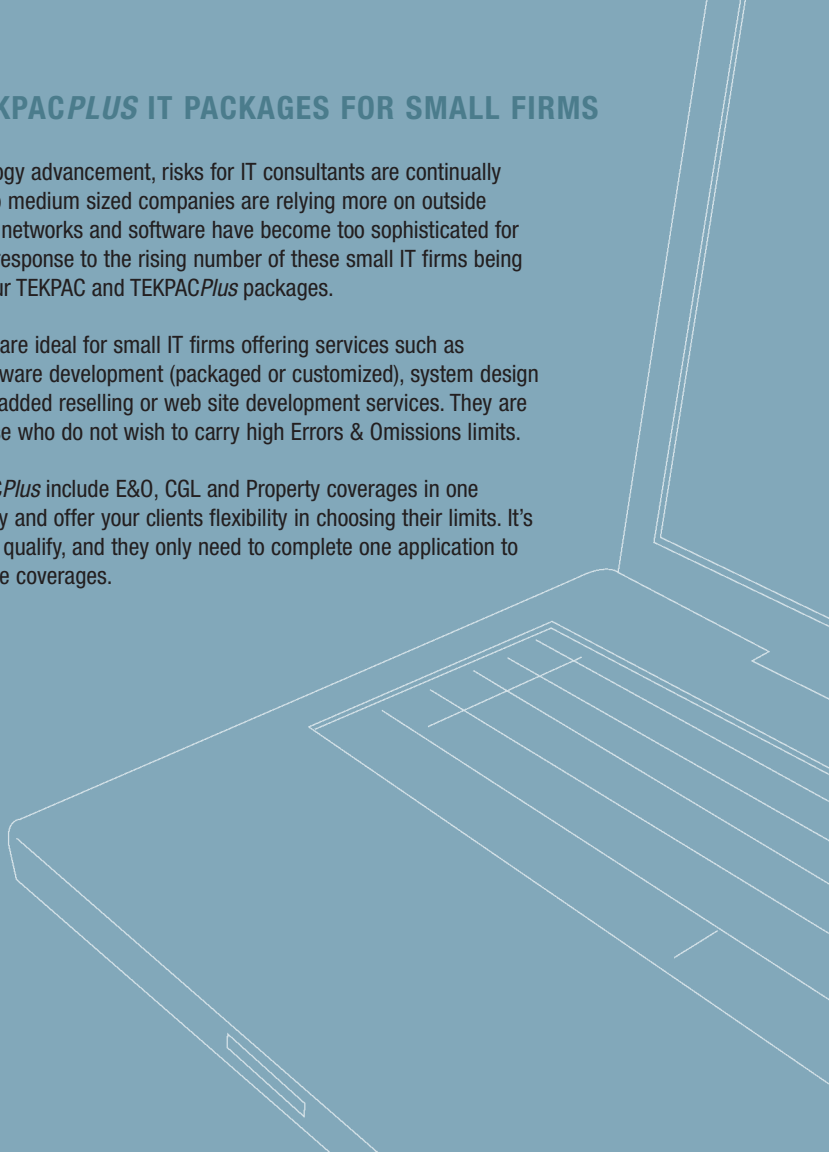

Creechurch is now the largest Lloyd's coverholder in Canada, and all of our products are developed in-house specifically for the Canadian market. We work closely with brokers, insureds and insurers to produce the most comprehensive coverage for your clients.

TEKPAC AND TEKPAC*Plus* IT PACKAGES FOR SMALL FIRMS

Due to computer technology advancement, risks for IT consultants are continually increasing. Many small to medium sized companies are relying more on outside sources for IT support as networks and software have become too sophisticated for the average user. It is in response to the rising number of these small IT firms being used that we designed our TEKPAC and TEKPAC*Plus* packages.

TEKPAC and TEKPAC*Plus* are ideal for small IT firms offering services such as computer consulting, software development (packaged or customized), system design or integration, and value-added reselling or web site development services. They are attractive options for those who do not wish to carry high Errors & Omissions limits.

Both TEKPAC and TEKPAC*Plus* include E&O, CGL and Property coverages in one convenient package policy and offer your clients flexibility in choosing their limits. It's fast and easy for them to qualify, and they only need to complete one application to obtain a quote for all three coverages.
